

Josh Brey

Courses Taught:

Pre-Algebra, Algebra 1, and Applied Math

Biography:

I attended kindergarten through 12th grade at Mackinaw City Public School. Once I graduated from high school in 2002, I went on to receive my Bachelor's Degree in education with a major in mathematics and a minor in language arts from Central Michigan University. Once I got settled into my current position as the 8th grade mathematics teacher, I received my Master's Degree in curriculum and instruction from Central Michigan University. I currently live between Alanson and Indian River with my beautiful wife Emily, who teaches kindergarten in Mackinaw City, and my adorable little girl Makenna.

Teaching is a profession that I truly enjoy. I look forward to coming to school each day to interact and learn with the students. I am passionate about math and try to create an environment that is both fun and productive.

I love Northern Michigan for all the opportunities it offers for active people like me. I love to play sports and be outside whenever possible. In the nicer months of the year, I enjoy camping, fishing, boating, waterskiing, tubing, four-wheeling, etc. There are very few sports that I don't enjoy. I also love to play golf, tennis, baseball/softball, basketball, run, etc. I am a very active person even in the winter months. I still enjoy the sports that I am able to play indoors as well as some winter outdoor sports such as hunting, snowmobiling, downhill skiing, ice fishing, etc. Northern Michigan is an ideal place for all of these activities, for this reason and many others, I love it "Up North!"

Favorite Quotes:

"Kids don't care what you know until they know that you care."

"Sometimes you have to crawl even after you've walked."
