

I am Kristi Marquardt, Title 1 support teacher for grades 3rd – 5th. I feel fortunate to be working and living in Harbor Springs with 3 children. This is our 4th year in Harbor Springs and we are all happy to be part of such a wonderful school system.

I have many experiences to bring to the Title 1 program at Shay, working with children in many capacities. Prior to coming to Harbor Springs, I taught kindergarten in Gaylord and continue to be involved with coaching skiing and other activities my kids take part in.

I graduated with a degree in Elementary Education and hold an Educational Technology certificate from MSU.

Everyday is both challenging and rewarding. Working with students on a personal level is exciting, as I am fortunate to be able to see the confidence they gain when they progress and become successful. I strive to encourage and guide all students to achieving their "personal best".
